WHEAT DID NOT ADVANCE

IN SPITE OF BULLISH INFLUENCES THE CEREAL LOST 1-to.

Corn Also Scored a Loss of 3-Sc. Oats Declined 3-8c, but Provisions Advanced Under Covering of Shorts.

The grain markets were weak in the enafter a day spent in struckling against the influence of depression from lack of business. The raiding of the outs market of the day before was continued and was more successful to-day, resulting, as it did. in a decline of %c. Wheat, with every it ducement to go higher, declined %c. an corn, without anything bearish in the mediate outlook, also sold off he. Provisions were independent of the course of

grain, and made advances.

Wheat opened quiet and steady at abthe closing price of the day before, and held within he of ase per bushel all fore-noon. Trade was or the dull-at kind. The primary market receipts were a little larger than on the corresponding day of th week before, but were very little more than one-half of the quantity received on the similar day of last year. Chicago inspected into store fifty carloads, as compared with 150 cars a year ago. Minneapolis reported receipts of 155, and Dulath thirty cars, of 165 together, compared with 207 a wee ago and 284 on the same day last year. The clearances from the Atlantic ports in The clearances from the Atlantic peris in wheat and flour amounted to leasure bushels. The foreign markets were in the main firm. The market floully turned weak during the last hour, and May broke to alway Fig. spit. The stubberiness with which the market refused to alwayed discouraged holders and the liquidation carried prices down. May closed at May.

The corn market was rather firm for a short time near the opening, but became heavy later, and quite weak about farty-five minutes from the close of the session. The receipts were even smaller than the moderate number of ours estimated yesterday. Business was dull on the average.

moderate number of cars estimated yester-day. Business was doll on the average. The cats market was the only appearant weakening factor. May opined at 6750, sold as high as 475048, dropped later to 675c, and \$t the close was at 675c. The caus market was the "whole thing" again to-day. The ecuivity and slump in prices was even greater than yesterday. May sold from 365c to 575c, and closed at 305c bid.

May sold from Selection of the and closed at 20% bid.

Yesterday the market closed at 20% 50%. Updyke, Balilwin-Farmum and frein-Green headed the selling.

The provision market recovered somewhat from yesterday's great run of hogs. To-foy, although the hog receipts were sell heavy, numbering 47,000, as against 45,000 estimated, the market opened firm at a little improvement on yesterday's closing prices. It was supposed that much of the day's buying, which occasioned the firmer feeling which prevailed, was due to covering of short lines for account of Western packers. May park closed 17½ higher; lard and ribs closed at the top of the day's range, and each at 7½ improvement for the day. the day.

There was more life and a firmer tone to the market yesterday. The run was light, and the reports from other points more favorable to sellers. Hence buyers took hold with less coaxing, and a good and rather firm market was had for most offerings. There were but few export steers in. One lot of 16 Aberdeen-Angus and Shorthorn steers, averasing 1,42 pounds, soid at \$4.95. Cows were steady, and showed more life. Stockers and feeders also soid very well, but prices no better, as this class is relatively higher than butcher stuff. Range cattle, as well as natives, also met with a better and stronger market. Milch cows quiet, but prices unchanged, Common, \$15.009,11.00; medium to fair, \$18.001,21.00; and good to choice, \$25.009,35.00.

There was quite a dron in the receipts yesterday and the reduction in the supply encouraged a stronger market. The quality was generally boor, yet packers and corder men were good buyers and sales were made at an advance of 5678c per ewt. and at this improvement there was good buying. Chicago, Jun. 17.—CATTILE-Receipts, \$12.-000. Not so many cattle by 4,000 head arrived yesterday as was estimated and the run to-day was light, consequently there was a return of confidence. There was freer buying from the start. Sales were principally at \$1.4074.50 for steers and at \$2.0093.00 for cows and bulls. Few cattle were left over and the close was firm. HOGS-Sales of hogs were at \$4.0094.50 for common to prime lots averaging over 250 pounds, at \$2.5094.40 for averages of 200 to 250 pounds and at \$3.7504.20 for lighter weights. With fresh receipts of \$5.000 and stale hogs enough to swell the supply to \$6,000, it was scarcely to be supposed the market would develop much strength. Trade was active, shippers and packers buying very freely, but there were too many hors for the demand, the close of business finding several thousand still in the pens. The bulk of the sales was at \$4.004.15 for light and at \$4.1544.40 for medium and heavy.

SHEEP-To-day's receipts were about \$1.2000 and generally of pretty fair quality. The market was strong to a shade higher, under 2 good export and local demand. Sheep were quoted from \$2.00 to \$3.50 and the bulk soid from \$2.50 to \$3.50. The top for lambs was \$4.45 though not many sales were made at that price. A good many sold around \$4.45 and the bulk brought \$4.694.40.

HOGS—Receipts, 10.000. First bids were way lower, but the market finally settled down to a decline of about \$6 on an average. On this basis quite a good many of the loss of the loss of the specific price of the loss of the loss sold. Supplies were libelest flower than yesterday.
